## 8. GUIDE FOR JUDGE SELECTION FOR RECORD ATTEMPTS

The points of this guide are listed in order of importance.

8.1 The judge may not be any of the following:

- same nationality or club as the athlete
- coach
- manager
- family member or girlfriend/boyfriend of the athlete.
- There must not be any conflict of interest i.e. no close friends or adversaries, no business partners, no sponsors and no media.

8.2 Best possible main judge, A or B level is required

8.3 Best and highest possible second judge. Level A or B is a priority but a lower level judge in the process of training to be a higher level judge may also be selected. However, in the case of an attempt with extraordinary circumstances, the second judge should definitely be level A or B.

8.4 Special requests by organizers which should be taken into consideration:

- Request for a judge that is also a board member, in order to help to promote and to develop the sport in their country by meeting and talking with authorities, politicians or similar.
- Request for a Judge-Instructor so that it will be possible to hold a Judge Course at the same time.
- Request for a Judge with specific language skills.

8.5 Lowest cost for the organizer. This means choosing a judge residing closest to the attempt location in order to obtain the cheapest possible transport solution.

8.6 Fairest solution which will facilitate the promotion of a lower level judge in training.

8.7 Motivation of a judge; The AIDA International Judge must be ready to work always and everywhere, for all possible attempts. The responsible for Judges together with the Sport Officer log all candidacies, judging, evaluations. Judges that ONLY sign up for attempts in exotic locations will not be considered.

8.8 Special circumstances may require the AIDA International Executive Board to send a specific Judge to judge the record attempt. This point may override all other selection criteria if deemed necessary.
